

Testimonial for EOI website:

One word comes to mind when we describe our son's and our family's experiences with Exceptional Opportunities. The word is EXCEPTIONAL! Brian receives exceptional care in the community supported living program located in Algona and in the vocational program provided by Exceptional Industries in Burt. He has the opportunity to participate in community activities with his housemates and friends; as well as expand his skills with new experiences and blossom in the rich environment provided by an exceptional staff.

As parents, we are welcome partners in the planning of our son's program goals and needs. Staff members keep us up to date on Brian's progress often sharing "happy" moments in his life, the times when Brian makes them smile! Our concerns are always addressed in an open dialogue with staff and supervisors. At Exceptional Opportunities, Brian is a person first and a consumer of services second.

David and Lynn Jenson
