

I began working full time at Exceptional Opportunities as a secretary in February, 1976. I stayed in this position for several years. I then accepted the position of QMRP-A where I wrote, assessed and evaluated the programming for our individuals. I had been a volunteer EMT for my local community so when an opening in Health Services became available, I applied and gladly accepted the position of Certified Medication Aide/Health Associate. After several years with the Health Services team, Exceptional Opportunities started a college tuition program for their employees. I decided to take advantage of this program and pursue my nursing degree. I received my LPN license in the fall of 2009 and have never regretted that decision. Exceptional Opportunities has given me many opportunities for growth and development through my many years of employment. In 2011, I also became a certified phlebotomist with the help of my employer. I have received many different opportunities through all my years of employment and still have maintained the wonderful benefits that Exceptional Opportunities offer their employees. Exceptional Opportunities promotes teamwork and shows appreciation to their employees and I am proud to be part of their team.

Karen Posey, LPN
